Transforming ESG Reporting - Fintech's Role in Sustainability Compliance

Sinan Gabel
sinan.gabel@qvonto.com

The Big Picture

- UN SDGs
- EU Capital markets - Sustainable investments

Sustainable investments ^(EU)

- contributes to an environmental objective
- contributes to a social objective
- “no harm” and good governance

EU Regulatory requirements

- Prior reporting - to marketing investment products
- Periodic reporting - at entity and product level
- Annual report, Prospectus, Websites, Marketing materials a.o.

Qvonto solves

- Full end-to-end software services
- From raw data input to
- final or near final regulatory documents

Qvonto Algorithms & AI

- Computed document contents
- Translations
- Reviews, Controls, Monitoring and much more

Video

High complexity - hidden

- Much more than meets the eyes
- *A full understanding would require a number of full walk throughs from input information enters and to documents are published*

Qvonto client gains

- Compliant regulatory reports
- High quality documents for retail- and semi professional clients - of the financial market participants (Qvonto clients)
- 90 percent reduction of manual processes
- Consistency across documents
- Business value-adding activities and much more

Discussion with audience

- Insights from audience
- Insights from Qvonto
